

Coloured and Clear Mouthguards

Our mouthguards are available in a range of standard colours, giving you the option to choose your favourite colour or team colours.

Please note that some colours are only available in certain thicknesses. Your dentist will advise you accordingly depending on your age and sport which thickness is best for you.

Consult your dentist

Once you have chosen the design of your mouthguard from our extensive range, make an appointment with your dentist to discuss your requirements further.

Your dentist will be happy to make you a custom-made mouthguard which will fit your mouth exactly and protect your teeth and gums.

Your dentist will take an impression of your mouth and will also recommend type and thickness of

mouthguard for the sport or activity you participate in.

Your mouthguard will then be made by a qualified dental technician using the latest technology to ensure a perfect fit.

Please note that no mouthguard can offer complete protection against oral injury, however a custom-made mouthguard can significantly reduce the risk or extent of damage.

Don't leave it, clean it with

Nitradine Disinfecting Tablets

Mouthguards are made from a porous material in which opportunistic and pathogenic micro-organisms (fungi, bacteria and viruses) infiltrate, attach and form a biofilm, a 3-dimensional protective matrix in

which they build-up. Nitradine disinfects and cleans, efficiently removing biofilm formed by Candida albicans which penetrate the pores and cracks of a mouthguard.

Don't forget to ask for one of our appliance boxes to keep your mouthguard clean and safe.

Mouthguard Decals

If you really want to stand out from the crowd, why not customise your guard using one of our decals, your club emblem

or design your own (artwork must be supplied). The decals can be applied to any of our clear, coloured, striped or special mouthguards.
